

# EXPLORATION PROGRAM

At GRAIN DE COULEUR, we support students, entrepreneurs, and professionals in bringing their projects to life, whether it be in design layout, eco-design, scenography, textile collections, and more.

Regardless of the stage of your project, we guide you from the initial concept to the final product.

Our workshops are dedicated to the learning, deepening, and mastering textile skills, offering you personalized support to fully unleash your creativity.

Each project is given personalized attention and follow-up.

At every stage of our process, we integrate ecological sensitivity

This commitment is realized through waste reduction and raw material reuse.

# from idea to realization
